- Updating your information with the Association of Graduates matters! We want to get you connected with grads and events in your local area. With your help in updating your address, rank, and contact information as it changes we can tailor messages that keep you connected to the Long Blue Line.
- We love hearing about the cool things you are doing after graduation! From building your career, growing your family, to volunteering - we want to highlight how awesome our young alumni are! Tag us on social media, send us an email, or share your news with your class scribe.

- The AOG is here to help at any stage of your journey! From changing career paths to being medically discharged - we want to support through each plot twist. Don't wait to reach out to the AOG Team and ask what services or grad connections we have to help you navigate life's challenges.
- You have a network of support like no other college or university can provide. The experiences you had at the Academy, even though they may look different over the years, connect you with 62 other classes of Academy Graduates. Lean into the opportunities and connections that are available to you.
